VOLUME 38

FRIDAY SEPTEMBER 7th 1945

NUMBER 19

Funeral Services For Wayne Burr Sunday

Funeral services for Wayne Burr, 20, who passed away as the result of an accident at the farm when a horse fell with him and broke his leg in three places, were held in the 2nd Ward Chapel Sunday at 3 p.m. with Bishop L. L. Palmer in charge, and fourteen. In the late teens and the twenties it becomes an important hazard.

Of 360 active cases of TB found in Xraying 140,000 Albertans through the mobile chest X-ray films, over 50 percent were over 40 years of age. Most of these were likely to be infected by the citizens of Under and outer clothing, shoes and part.

Hymns by the choir were: "Oh My Father," "Sometime We'll Understand" and "I Need Thee Every Hour." Meditations Ruth Schum and Madge Fairbanks sang a vocal duet and Mrs. Emma Dahl played an organ solo.

The opening prayer was by Pres. T. Geo. Wood and the benediction by Bishop Hicken.

Speakers were Elders M. T. King, J. H. Walker and Bishop L. L. Palmer all of whom spoke of the hope and assurance of the resurrection and life after death which will bring this family together again and permit them to take up the threads where they were suddenly snipped by this passing. Each of the speakers paid tribute to the service of the parent's deceased in community and church capacities, and felt that their understanding of the plan of salvation and exaltation would soften the pain of this seemingly untimely death.

On behalf of the family Bishop Palmer thanked everyone who had in any way assisted during the short illness and passing of this young man.

Interment was in the Lethbridge cemetery at 11 a.m. Monday forenoon, Christensen Bros. having charge of these arrangements.

The sympathy of the community is extended to the sorrowing parents and brothers and sisters in their bereavement.

Before the days get too short, we think it would be a fine day for Western Canada at least to revert to Standard time. It seems silly to have the children go to school in the dark as they have to in November and December under the present time. With the war over, why not get back to pre-war time?

WATER IMPROVEMENTS TO PROCEED

After obtaining a favorable vote for the waterworks project, the Council by 2d and 3rd readings to the by-law and forwarded it to the Public Utility Board to obtain their approval to sell debentures.

In the meantime the Town is going ahead with the project from funds on hand. An engineer is expected this week to work out final details for the large storage tank and pipe line to connect up the new reservoir with the water system. It is hoped to have these completed this fall in order that, if necessary, water may be obtained from the new reservoir although it isn't likely that filters and other items will be available yet.

On the sewerage project, at a special meeting of the Council it was decided to proceed with this project and the Secretary has applied for approval of the Utility Board on the proposed sewerage by-law. The approval of the Board of Health for this project has already been obtained. The necessary legal formalities are being proceeded with and if the public supports this project as they did the waterworks by law nothing will stand in the way of carrying this project to completion. The public will be informed of the details of this project at a later date.

"What Can You Spare That They Can Wear"

This is the slogan of the local Allied countries. Raymond people, committee for the National Clothing Collection, and residents of our will we go to help these helpless Town and district are asked by the Committee to start now to make their selection of what can be spared for the collection to be made between October 1st and 20th of this year.

It is estimated that 125,000,000 people made aware of it. What we should bear in mind is the dire need of these people for these articles of clothing. are not donated by the citizens of Under and outer clothing, shoes and part.

9th Victory Loan Opens October 22nd.

Ottawa, August 31st: — Canada's Ninth Victory Loan will open on October 22nd and will be the biggest ever floated in this country, the Honorable J. L. Hickey announced today. The Loan will cover Canada's borrowing needs for the next twelve months, the Minister of Finance explained, making it unnecessary to have another campaign next spring.

"One large Loan now instead of two smaller Loans, one now and one later in the Spring of 1946, means a real saving of time, effort and expense," he said. "It is possible to plan for a full year's needs in one Loan because Canada's borrowing requirements over the next twelve months will not be as large as they have been in recent years."

"Victory has been won in Europe and in the Pacific. That end of hostilities means the end of many war costs. But, we now face new tasks. And, these new tasks bring new needs. So, total outlays and borrowing requirements will continue at high levels."

"For instance, men in hundreds of thousands must be brought back to their homes and from overseas. This will take time because of shipping shortage and continued operations in occupied areas. Meanwhile, they must be paid, fed, housed and cared for in a hundred and one different ways. This all costs money—large amounts of it."

"Then, the wounded and the sick must be restored to health. Veterans will be given a good start in civilian life. Many will be trained for new jobs. War service gratuities and re-establishment credits will be paid. These and other rehabilitation endeavors involve hundreds of millions of dollars."

"People in war-torn countries need food, clothing, medical and other supplies to relieve suffering and distress. The United Nations, including Canada, are making gifts of essential supplies to these countries. Canada is also lending money to countries in war areas to help them buy supplies in Canada urgently needed to overcome the losses and devastation of war. The money Canada will spend and lend in these ways is an investment in the future peace and prosperity of the world."

"Then, there are outlays of various kinds to clean up the war program, and to start us on our way towards normal peacetime living."

"These tasks, and these needs, are reasons why Canada's borrowing requirements for the next year will remain at a high level even though direct war costs have declined with Victory in Europe and in the Pacific. They are reasons why Canadians are being asked to continue their present savings program for another year."

"Plans to win the peace—plans for high employment and prosperity in the days to come—are now being laid. Continued savings over the next year will help these plans succeed."

"War production has come to an end. Production for civilian use is on the way up. But, the supply of new things to buy at current prices is still very much less than the amount of spending money in the hands of Canadians. As long as this condition remains, there will be upward pressure on prices—pressure which could lead to inflation, then to mass unemployment, misery and hardship."

"Savings reduces it. So continued saving by the purchase of new Victory Loan Bonds, helps to keep the cost of living under control, and to maintain the buying power of our money. By helping to maintain stability it will help us to win the peace."

"The minimum objectives for the new Loan are the largest in Victory Loan history. They reflect the two Loans in one feature of the 9th Victory Loan, the continued high savings, and the new level of borrowing requirements."

"As individuals, Canadians know the value of Victory Bonds—the value of a reserve of savings to meet future needs and wants. With twelve months to go for 9th Loan Bonds, many Canadians will buy doubly the amount of their purchases in earlier loans, and most others will buy more than before."

"The 9th Victory Loan will be Canada's Greatest Victory Loan."

Your Support IS VITAL TO RATIONING Mr. and Mrs. Farmer

With other groups, you play a part so that everyone gets a fair share

The FARMER

Under the rationing regulations, you are asked to collect and turn in the coupons you acquire against the use and sale of butter and, when meat rationing is introduced again, of meat; and the coupons you get from the sale of honey and rationed maple products. So that you may buy other meats from your butcher, no more than one-half of the valid coupons in your ration book and in those of your household need be surrendered. To make it easy to send in coupons, you are provided with RB-61 envelopes which should be forwarded once a month to your Local Ration Board. No postage is required.

The RETAILER

The retailer also plays a part. He must obtain coupons or other valid ration documents against every sale he makes of rationed foods—butter, sugar, preserves and, when meat rationing becomes effective again, meat. Otherwise, he cannot replenish his stocks. He must paste all coupons on gummed sheets and endorse each sheet with his name and address. If his monthly food sales total \$2,500 or more, he is required to operate a ration coupon bank account. He must also give valid ration documents or a ration cheque to his supplier for every purchase he makes of a rationed food.

The HOUSEWIFE

The housewife, too, has rationing work to do. She must know the validity and expiry dates of butter, sugar, preserves and, later, meat coupons so that she can make supplies of these foods last. She must know the coupon values of all rationed preserves and meats. She has to understand the sugar alternative of the preserves coupon in order to do as much home canning as possible and still have coupons for honey, syrups and other preserves. She must guard family ration books carefully and give up coupons for every purchase she makes of a rationed food.

RATIONING is your assurance of a fair share. It is a protection against waste . . . shortage . . . inflation.

That is why farmers are asked to continue to collect and turn in coupons to their Local Ration Boards - once a month - in the RB-61 envelope:

work is being done from Magrath this way, and while this link will miss the town, it will be a real asset if maintained, because Magrath seems to have more than a job in hauling the present road than the town during the wet season of the year when there is so much heavy traffic on it with the trucks, the bus and so on.

The gravel is being taken from Temple Hill and when put through the crusher, the haulers say is making a very good surfacing.

ROAD GRAVELLING PROCEEDING

A special Council meeting was held Thursday night of last week, decided upon by the Municipal Council for this summer, is going ahead steadily with the two weather.

Representations were made by the Cheese Factory Board and the Municipal Hospital Board to have a sidewalk working this week.

The crusher and drag line work laid on the south side of the from 7 a.m. to 6 p.m. and trucks street from Broadway to the bus enough to haul this gravel are kept vital. The Council decided to have on the roads. The work was started property owners, on these blocks on the Surling road from the edge contacted and see if they were in of the village and this road was favor of a fifty-fifty scheme with surfaced about half its distance to the Council to have this sidewalk the E. L. Paxman farm, but has laid, the owners share to be paid on since been completed and the end of a frontage basis and either in the week they started on the stretch cash or on a possible 20 year pay between the Thos. Hocking corner, ment.

The report of the Returning Officer joining the Cardston highway justifier on the Water Improvement at the west side of Magrath. This by-law was given by Mayor Jensen

TOWN COUNCIL MEETING

and the by-law read a second and it was not until noon again on third time. Two Secretary was a Saturday that a bus arrived to take struction to give the Recorder in a ongoing passengers to Lethbridge mission re the Waterworks project or two coming from Cardston and this is found elsewhere. ? to Raymond were unladen at the

The Council spent some time on Wellington Junction to walk in catch the Waterworks project and the Secretary was instructed to find out from the Dominion Government if any work undertaken by the Town new could qualify for any assistance that the Dominion authorities might give in immediate post war years.

The Secretary was also instructed to have the P.E.R.A. Reservoir in the Hancock Coulee cleaned and to ask in the Town. A letter of appreciation was ordered sent to Martin Blair, along with an extra cheque in appreciation of the splendid condition of the Town Hall grounds under his care.

The sewerage project will be pro

Playing safe with TEXTILES

The supply of textiles is not adequate to the demand.
For six years, most of the world output has gone to war.
Victory has not improved the situation.
There will not be enough textiles in Canada for many months to come.

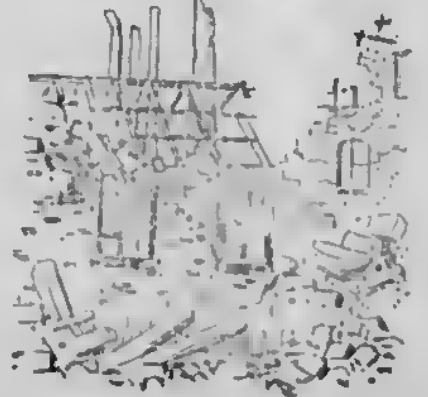

HERE ARE SOME OF THE REASONS

Canada depends largely on other sources for raw materials and for some yarns and fabrics.

A serious manpower shortage still confronts the textile industry of all Allied countries.

Shortages overseas must be met. It will take months before production is resumed in Europe.

Substantial quantities of all kinds of textiles are still required by occupational forces.

Domestic demand for textiles increased sharply during the war. It is still going up.

Civilian clothing needs of returning servicemen and women are swelling the demand here at home.

CONSERVATION IS THE KEYNOTE

This year, production directives have again been issued to the textiles industry.

They are intended to divert output to more essential goods.

But directives alone cannot cure a situation arising from world conditions.

The answer lies in conservation. More than ever, the need is to conserve, to take care of what there is, to mend, make-over and make-do.

TO PROVIDE CANADIAN WOMEN with guidance and practical assistance in maintaining the family wardrobe, the Board has prepared a series of advertisements, to assist Canadian women. Each subsequent tested ways of will illustrate tested ways of styling new and fashionable clothing from outgrown and outdated garments. For valuable hints on style, economy and CONSERVATION, watch these columns.

B. A. BUYS UNION OIL

Sales Manager, Western Region, of B.A. OIL.

Purchase of the business and the physical assets of the Union Oil marketing activities from coast to coast in Canada by the British post and the added volume of British American Oil Company Limited was announced today by W. K. Whitford, president of Union Oil outlets will be President of British American Oil (British American Oil as the Union Oil of Canada is a wholly owned independent Canadian owned subsidiary of Union Oil of California and has been one of the large makers of petroleum products out of the rest of Canada.

In British Columbia and Alberta, it is understood that all former employees of Union Oil of Canada have been invited to join the staff of British American Oil.

Interviewed today, A. H. Miller, Vice-President in charge of sales of the British American Oil Company, J. C. Hall, Regional Sales Manager, Western Region, of B.A. OIL, stated that the expansion of British American Oil to the West Coast implies one phase of the company's postwar plans. The large marine facilities now afforded British American Oil will place the company in a position to actively participate in the export market, which the company anticipates will continue to develop.

Company in this territory. made possible through a credit card British American is a completely integrated company owning its own crude oil wells, gathering and pipe lines, refinery, marine and land bulk storage and marketing facilities. According to the company's latest financial statement which covers operations for the year 1944, British American Oil Company's assets are in excess of \$67,000,000. Based on the company's 1944 share of approximately 19.09 shares in the company, the total value of the company is approximately \$1,290,000,000. The company is a public corporation and its shares are listed on the New York Stock Exchange.

Mr. Miller stated that British American Oil does not contemplate immediate construction of a refinery at Vancouver. Union Oil products have been recognized for quality and arrangements have been made with Union Oil of California where by that company will manufacture its new catalytic cracking process at Wilmington, California, the plant will produce a product which will be sold to B.A. OIL. In addition to its own famous line of brand products, B.A. intends to continue to produce Triton Motor Oil and other products. B.A. OIL is a public corporation and its shares are listed on the New York Stock Exchange.

For the convenience of the Canadian motorist, British American Oil the Maritimes in 1935 and only the new offers credit facilities to motorist. The company had entered into a partnership with the United States the latter

will likely take all they manufacture for the immediate present, although there may be a few for civilian sale. According to recent press release for the Ford Dealers' Convention all manufacturers are working at top speed to retool factories to civilian manufacture, and some companies, Ford in particular, was in the position of having some pre-war supplies on hand that are going into immediate manufacture of cars and trucks.

A very profitable time was spent and dealers were assured some trucks in the immediate future. Miss Winnie Mitchell of the Treasury Branch has been transferred to the Calgary office. 1946 models of all sizes of trucks are coming off the Ford assembly lines now.

It is expected too, that some pre-war cars will be manufactured with the Archie Bennett family in right away, but priorities in this line are Salt Lake City.

"Here comes our cheque Mummy!"

All over Canada, in cities, towns, villages and on farms, hundreds of thousands of men and women watch for the postman to bring dependents' allowance cheques as other people look for pay-day. They are people of all ages whose breadwinners are away on active service. They include returned men not yet back in civil life.

And soon there will be hundreds of thousands more back from the war. They will receive cheques to help them buy civilian clothes, to go to college, to get technical or vocational training, to start in business for themselves, or to set up as farmers or fishermen.

The banks have to be prepared to cash all official cheques for these and a dozen other purposes—and to do so anywhere in Canada without charge. In fact, the banks supply Canada with the nationwide machinery to facilitate a grateful country's plans for restoring service men and women to civilian life.

This is a tremendous task. It will entail a vast amount of bookkeeping. But you can be sure that your banks will take it in their stride without impairing regular banking service.

Is MONEY the fertilizer you need?

Money makes money grow. If you need extra money to do a better job on your farm, come in and discuss your plans and problems with us in confidence.

Ready money is available—

for the purchase of fertilizer, seed, and kindling;
for the purchase of livestock;
for the purchase of electrical equipment, heating and lighting systems, milking machines, pumps, etc.;
for the purchase of implements;
for the construction of drainage systems and fencing;
for road work and land improvement;

for the construction or repair of barnhouse and other farm buildings;
for any purpose that will make a good farm a better farm and increase its owner's revenue.

Have a talk with your Bank of Montreal manager. You will find he knows a good deal about the farmer's problems, and you will appreciate his friendly interest. His first ambition is to see every farm in this community a prosperous farm and where ready money is the fertilizer you need, he will be glad to lend it and plan with you for its intelligent use and convenient repayment.

The British American Oil Company Limited makes

THREE ANNOUNCEMENTS OF INTEREST TO EVERY CANADIAN MOTORIST

Here's a post-war plan already in operation

1. British American Oil

NOW OPERATES COAST TO COAST IN CANADA!

Effective at once—through the purchase of The Union Oil Company of Canada by The British American Oil Company Limited—Union Oil stations in British Columbia and Alberta will serve Canadian motorists at the sign of the big B-A! Now wherever you drive in Canada you will find courteous B-A service, and the same uniform high quality B-A products:

2. British American Credit Cards

NOW VALID THROUGHOUT CANADA AND THE U.S.

Effective at once, customers of British American will find a friendly welcome and may use the convenience of their B-A credit cards not only coast to coast in Canada but also throughout the United States! Friendly arrange- ments have been completed with three other great, independent Oil Companies—Gulf Oil, Mid Continent Petroleum, Union Oil of California—to welcome and serve motorists holding B-A credit cards.

3. British American Oil

RESTORES GASOLINE TO PRE-WAR QUALITY!

Effective at once, gasoline of pre-war power and economy is being made available at the sign of the big B-A. And as new type engines are produced, immeasurably superior gasolene—product of wartime research and manufacturing capacity—will be at your disposal.

You always buy with confidence at the sign of the big B-A!
